DETAILED ACTION

This Office Action is in response to the Amendment filed August 11, 2003. All previous rejections have been withdrawn unless stated below.

Election by Original presentation

Newly submitted claims 93-107 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: the claims are drawn to a composition which is a non-elected invention in view of the Restriction Requirement mailed October 2, 2002 and the Response filed November 6, 2002.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 93-107 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Claims

Claim Rejections - 35 USC § 112 – Indefiniteness (New Rejections)

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Art Unit: 1614

Claims 78-92 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

1) Claims 78-85 and 87-92 recite "suitable medicinal agent". The term "suitable" in claim 78 is a relative term, which renders the claim indefinite. The term "suitable" is not defined by the claim, the specification does not provide a standard for ascertaining the requisite degree, and one of ordinary skill in the art would not be reasonably apprised of the scope of the invention. It cannot be determined from the instant disclosure or claims what constitutes a "suitable" medicinal agent.

2) Claim 82 recites the limitation "said water soluble acid " in the first line of the claim. There is insufficient antecedent basis for this limitation in the claim.

3) Claim 86 recites the limitation "said medicament" in the first line. There is insufficient antecedent basis for this limitation in the claim.

Claims 78-92 are rejected.

Claims 93-107 are withdrawn.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
